

## LIMS / LIS Integration

LIMS is restrained by the rate at which data is acquired. Argon now integrates all robot systems with your LIMS software. [Read more](#)

The advancement Laboratory Information Management Systems (LIMS) has made to the scientific community is notable. By pairing a LIMS system with an automated laboratory you can perform your analysis quickly and seamlessly without clerical errors. Our systems can be integrated with your existing LIMS systems for a more dynamic and responsive analysis technique.
